

Cover change on RCG - RDG relays

RCG and RDG series relays are equipped by a new cover.

- Product mechanical strength is implemented;
- New indelible marking directly on the cover; it replaces marking by metal plate;
- An area is available for customer markings;
- A matte finishing is implemented. Contacts area will remain transparent and visible;
- Notches to hold retaining clips (optional mounting);
- Extraction handle is suppressed;
- The plastic material is unchanged.

Starting date

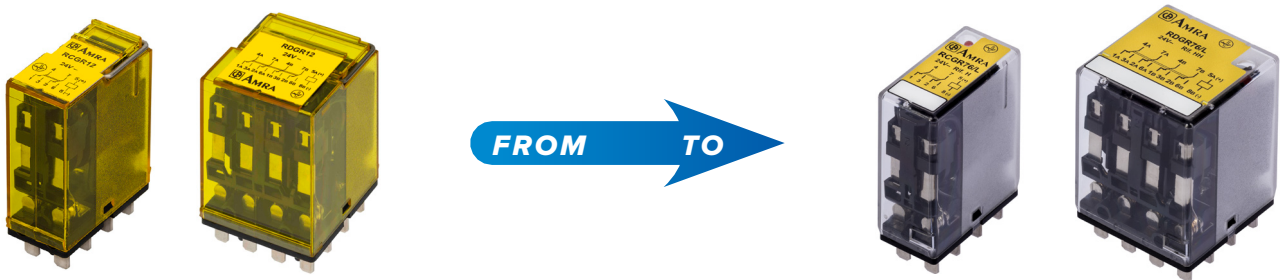

Deliveries with the new cover starts from 2023, June.

Interchangeability

Relays equipped with the new cover are interchangeable with relay equipped with the previous cover.

Product reference

Product code does not change.

Dimensions

Product size does not significantly change. No impact on your applications.
